FORUM & EXPOSITION
SULAYMANIYAH
2026**

The Purpose of HealthX

HealthX Forum & Expo is a purpose-driven healthcare initiative created in response to real and growing needs within the medical system. At a time when healthcare faces increasing clinical, technological, and structural challenges, HealthX provides a focused platform where physicians, specialists, academics, and healthcare leaders come together to close critical gaps between knowledge, practice, and system development.

Through carefully curated scientific forums, **evidence-based** discussions, accredited hands-on workshops, and direct engagement with modern medical technologies, **HealthX** delivers practical value that supports daily clinical practice and long-term system improvement. The event enables meaningful collaboration between healthcare professionals, universities, hospitals, health authorities, and industry partners ensuring that innovation is translated into real solutions rather than Remaining theoretical.

Beyond education and professional exchange, HealthX plays a vital role in strengthening and advancing the healthcare ecosystem by stimulating investment and development in the healthcare sector. By aligning medical needs with innovation, expertise, and institutional support, HealthX contributes to sustainable progress in healthcare services, infrastructure, and patient outcomes. HealthX is not simply an event, it is a necessary platform working toward **measurable** improvement in healthcare delivery across the region.

Vision of HealthX

To become the leading medical forum and exhibition in Iraq and the region, bringing together healthcare **professionals, companies, and innovators** under one platform. The **exhibition** aims to drive healthcare **innovation, education, and meaningful collaboration** between local and international stakeholders. It seeks to support the growth of the medical sector by showcasing **new technologies, products, and best practices**. Through this initiative.

Kurdistan will be positioned as a regional hub for medical excellence and global healthcare exchange.

Schedules Structure

Day 1:

Time	Main event programs May 13, 2026	Side programs on the first day of the exhibition
09:00 – 10:00	<ul style="list-style-type: none"> Official opening ceremony, speeches by the university president, governor, senior administrators, and sponsors 	Booths ready for viewing
10:00 – 11:30	<ul style="list-style-type: none"> Conference 1: Modern Medicine and Digital Health Technologies 	Welcome to the media.

Instant B2B meeting coordination

Committees & Members

Supreme Supervisory & Organizing Committee

- Assist. Prof. Dr. Fattah Hama Rahim Fattah Hawrami – Presidency of the University of Sulaimani (Head of Committee)
- Mr. Farhad Sultan Abadi – Shockers Company (Member)
- Ms. Lanya Hashm Shali – Shockers Company (Member)

Scientific Committee

- Prof. Dr. Atiya Karim Mohammed (Kurdistan/Iraq) - University of Sulaimani, College of Nursing (Head of Committee)
- Dr. Nasser Abdulla Mohammed (Kurdistan/Iraq) - University of Sulaimani, College of Medicine (Member)
- Dr. Dana Ahmed Abdulla (Kurdistan/Iraq) - University of Sulaimani, College of Medicine (Member)
- Prof. Dr. Hadi Mohammed Ismail (Kurdistan/Iraq) - University of Sulaimani, College of Dentistry (Member)
- Prof. Dr. Adham Mohammed Amin (Kurdistan/Iraq) - University of Sulaimani, College of Dentistry (Member)
- Prof. Dr. Awai Ghazi Abdulkarim (Kurdistan/Iraq) - University of Sulaimani, College of Nursing (Member)
- Prof. Dr. Zhin Othman Ahmed (Kurdistan/Iraq) - College of Pharmacy (Member)
- M.Dr. Hiwa Shafiq Namq (Kurdistan/Iraq) - College of Pharmacy (Member)
- Dr. Amir Masoud Abdolazadeh (Kermanshah, Iran) - Razi Medical College (Member)
- Dr. Mehran Zamanizadeh (Iran) - Tehran University of Medical Sciences, Iran (Member)
- Dr. Mohsen Radani Pur (Iran) - Tehran University of Medical Sciences, Iran (Member)
- Dr. Marwan Mazhar Jaafar (Kurdistan/Iraq) - University of Halabja (Member)

Committees & Members

Preparatory Committee

- Dr. Karzan Ghafoor Khidr – University of Sulaimani (Head of Committee)
- Assist. Prof. Dr. Fattah Hamah Rahim Fattah – University of Sulaimani (Member)
- Dr. Yohan Othman Hama – University of Sulaimani (Member)
- Ms. Fatima Dwira – Shockers Company (Member)
- Ms. Kashan Sarwar Omer – Shockers Company (Member)
- Mr. Saadi Sultan Abadi – Shockers Company (Member)
- Mr. Sarwar Omar Karim – Shockers Company (Member)
- Ms. Sohaila Emami – Shockers Company (Member)
- Mr. Mohammed Khalidi – Shockers Company (Member)
- Mr. Reza Abdulkarim Mohammed Saleh – Presidency of University of Sulaimani (Member)
- Mr. Mohammed Jalil Ali – Presidency of University of Sulaimani (Member)

Protocol Committee

- Ms. Chro Shihab Marf – Presidency of University of Sulaimani (Head of Committee)
- Mr. Rebar Faydhallah Abdulla – Presidency of University of Sulaimani (Member)
- Ms. Avesta Younis Mohammed – Shockers Company (Member)

Finance Committee

- Mr. Karo Bestun Sabir – Shockers Company (Head of Committee)
- Mr. Sarhang Taha Hussein – Presidency of University of Sulaimani (Member)
- Ms. Kashan Sarwar Omer - Shockers Company (Member)

Scientific Panels & Forums

The scientific panels and forums form the intellectual core of HealthX. These sessions bring together physicians, specialists, academics, and healthcare leaders to discuss pressing medical, technological, and system-level challenges. The forums are designed to be evidence-based, forward-looking, and clinically relevant, focusing on closing gaps between current practice and modern healthcare standards. Through expert-led discussions and strategic dialogue, the panels support informed decision-making and contribute to the development of more effective and resilient healthcare systems.

Professional Workshops & Hands-On Training

HealthX workshops provide practical, skill-based learning that directly supports daily medical practice. Delivered by experienced professionals, these sessions emphasize hands-on training, applied knowledge, and real-world scenarios. Workshops cover areas such as advanced medical technologies, clinical skills, digital health tools, and innovation in care delivery. By offering focused and interactive learning experiences, HealthX supports continuous professional development and strengthens clinical competence.

Exhibition & Booths

The exhibition area serves as a dynamic platform where medical companies, technology providers, institutions, and startups showcase products, services, and innovations. Booths are designed to facilitate direct interaction between healthcare professionals and industry partners, allowing participants to explore new technologies, evaluate solutions, and discuss practical applications. The exhibition supports collaboration, knowledge exchange, and informed adoption of innovations that can improve healthcare delivery.

Dual-Track Event Structure

HealthX Forum & Expo is designed as a dual-track event, allowing participants to engage simultaneously in scientific discussions or explore practical and interactive activities throughout the day. This structure ensures flexibility, continuous engagement, and maximum value for all attendees.e.

Track A: Scientific Forums & Conferences

This track includes all scheduled scientific panels, keynote sessions, and formal discussions. These sessions are held in designated conference halls and focus on clinical practice, healthcare systems, innovation, and professional development. Participants who wish to attend lectures, expert panels, and strategic discussions may follow this track according to the published agenda.

Track B: Exhibition Floor & Practical Activities

Running in parallel with the scientific forums, the exhibition floor remains open throughout the event. This track offers continuous access to:

- Exhibition booths showcasing medical equipment, pharmaceuticals, digital health solutions, and services
- Live demonstrations and product presentations
- Hands-on workshops and applied training sessions
- Networking and professional interaction with exhibitors and experts

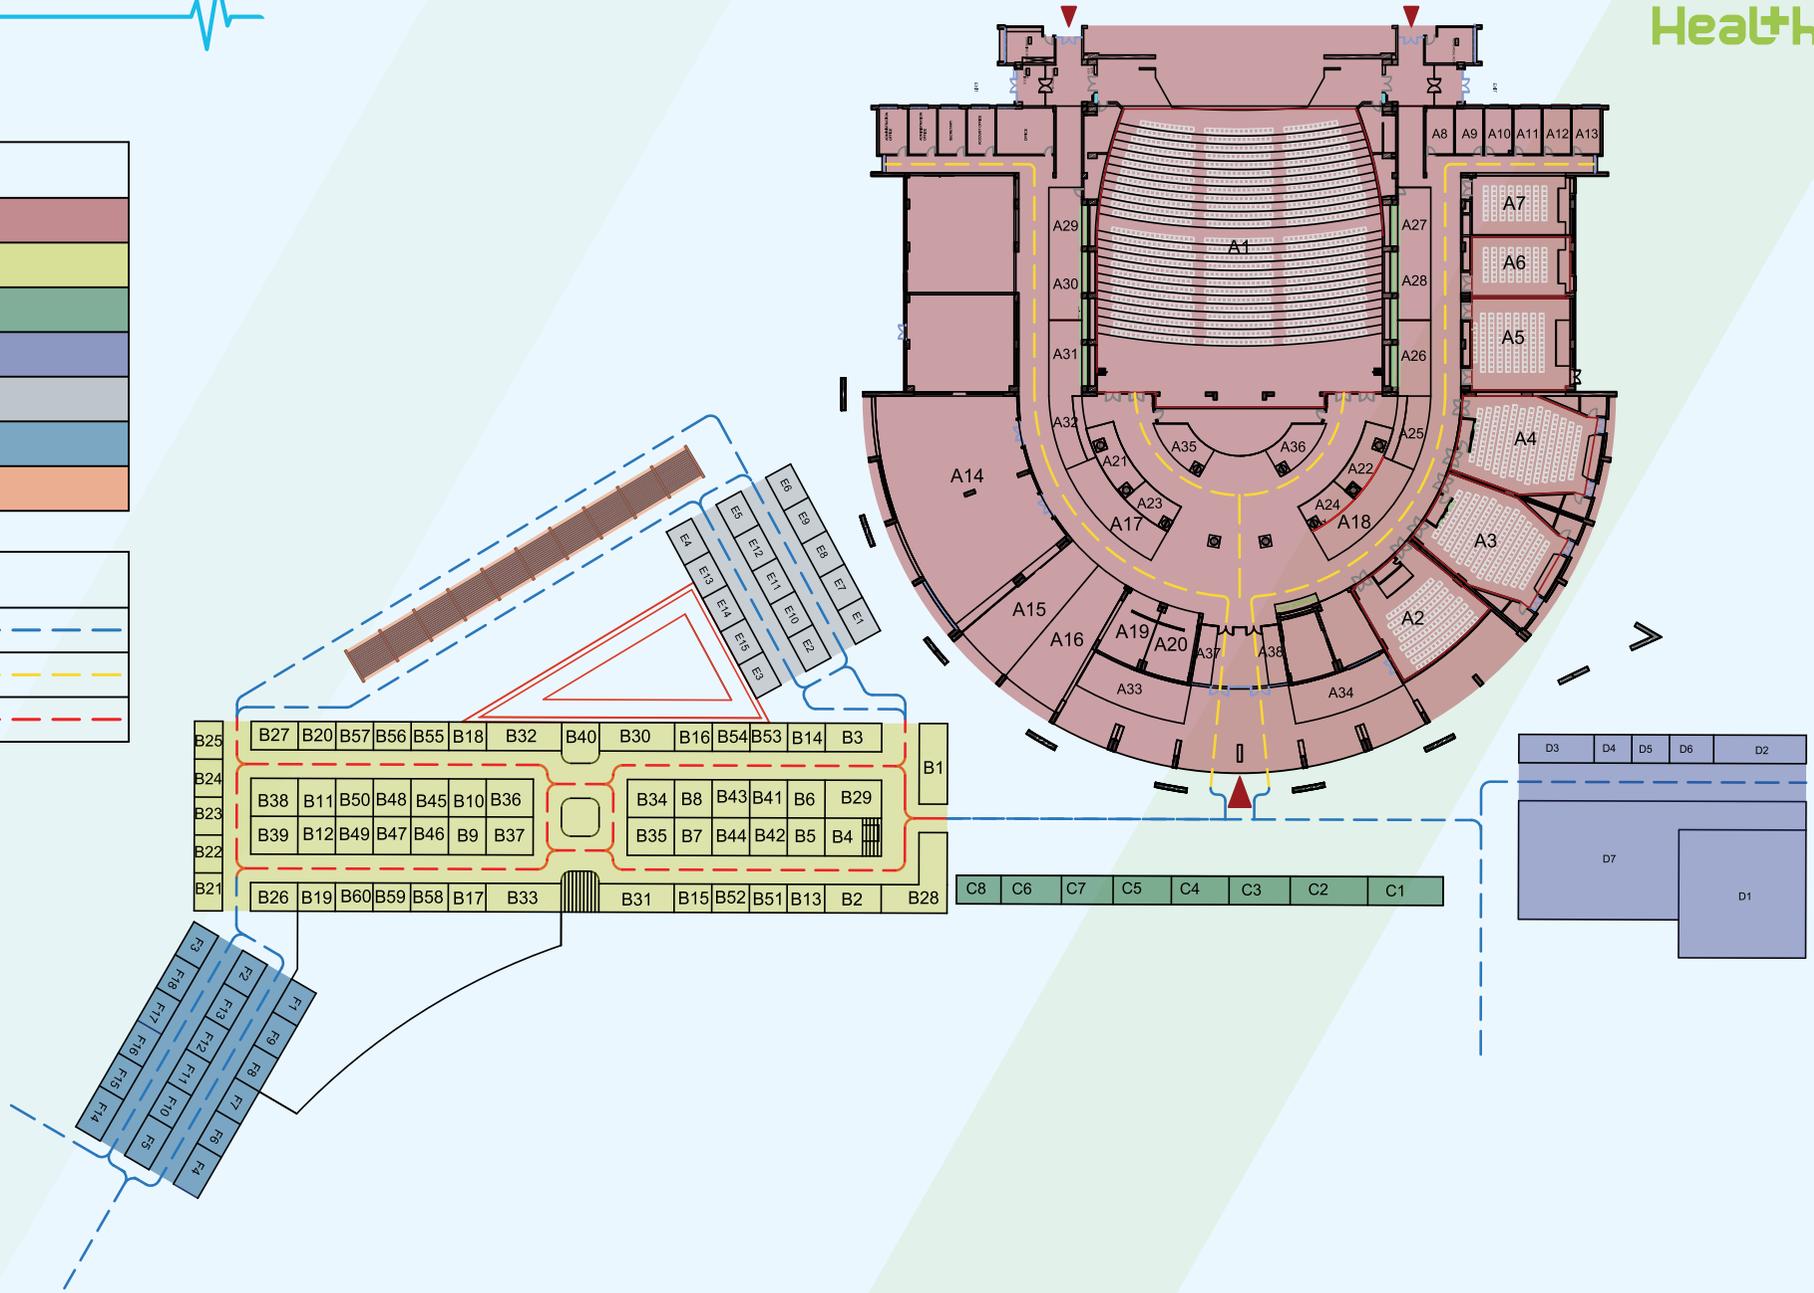

Participants are free to move between the exhibition floor and conference halls at any time, allowing them to tailor their experience based on interests and professional needs.
